

WORLD CLASS INDUSTRIES IL INC.
STANDARD PURCHASE ORDER TERMS AND CONDITIONS

Effective Date: June 28, 2021

1. **Definitions.** As used herein, the following terms have the meanings indicated:
- a. “**Affiliate**” means any entity that controls, is under common control with, or is controlled by either party, where “control” means the ownership, direct or indirect, of a majority of an entity’s equity or some other interest entitling or otherwise allowing the owner to direct the affairs of such entity, specifically including without limitation, any and all subsidiaries and affiliates of which either party owns, directly or indirectly, fifty percent (50%) or more of the voting securities, or less than fifty percent (50%) in countries that prohibit majority foreign ownership, provided that the party has voting control of such entity.
 - b. “**Buyer**” means World Class Industries IL Inc. referencing these Terms and Conditions in its Purchase Order.
 - c. “**Item(s)**” means goods and/or services ordered by Buyer from Seller pursuant to a Purchase Order.
 - d. “**Purchase Order**” means a transmission by Buyer to Seller electronically through a computer network or otherwise, by mail of hard copy, or by such other means as may be agreed (each a “Transmission”), containing a purchase order number, supplier code number, Item number, price, identification or specification number, engineering change number or material code number and/or such other information evidencing an offer to Seller by Buyer relating to the purchase of Items.
 - e. “**Purchase Order Release**” means a Transmission specifying quantities and shipping or delivery dates.
 - f. “**Purchase Order Revision**” means a Transmission revising the information contained in a Purchase Order.
 - g. “**Resources**” means access to or use of computer software and hardware, data processing equipment, and other resources provided by or on behalf of Buyer.
 - h. “**Seller**” means the entity indicated as Supplier on the Purchase Order.
2. **Acceptance of Purchase Order.** Any Purchase Order referencing these Terms and Conditions is an offer to Seller by Buyer to enter into the purchase agreement described by such Purchase Order. These Terms and Conditions along with any other specifications or requirements transmitted to Seller by Buyer in connection therewith and the terms of any signed written agreement between Buyer and Seller regarding Items shall be the complete and exclusive statement of such agreement. The contents of any such signed written agreement shall take precedence over these Terms and Conditions unless otherwise specified in such signed written agreement. Seller shall be deemed to have agreed to the Purchase Order (including any specifications or requirements stated therein) and these Terms and Conditions when Seller:
- a. executes and returns a signed writing indicating its intent to be bound by the Purchase Order; or
 - b. delivers to Buyer any of the Items ordered; or
 - c. renders for Buyer any of the services ordered (where Items ordered are, or include, services).

Any Items received by Buyer shall only be upon the terms of the Purchase Order (including these Terms and Conditions), notwithstanding any terms contained in any quotation, acknowledgment, invoice, or other document issued by Seller, or Buyer’s act of accepting or paying for any shipment or any other act. Seller’s acceptance of any Purchase Order is unqualified, unconditional and subject only to these Terms and Conditions and any of Buyer’s terms specifically set forth on the Purchase Order or any signed documents referenced in Buyer’s Purchase Order. Buyer expressly rejects any additional or different terms and conditions, including those which appear in any quotation, acceptance, shipping documentation, invoice or acknowledgment of Seller. Seller may not assert, as a defense to the enforcement of these Terms and Conditions any conditions or limitations made in a quotation, acceptance, shipping documentation, invoice or acknowledgement. Upon Seller’s acceptance of the applicable Purchase Order, these Terms and Conditions shall enter into force and constitute the entire agreement between Buyer and Seller. Seller waives signed acceptance of the Purchase Order by Buyer. Seller waives any right to contest the validity of these Terms and Conditions, or assert that they are void for any reason, upon Seller’s acceptance of the Purchase Order(s) referencing these Terms and Conditions.

3. **Entire Agreement.** No agreement or understanding to modify or supplement any Purchase Order or these Terms and Conditions shall be binding upon Buyer unless in writing and signed by Buyer’s authorized agent which writing must specifically acknowledge that these Terms and Conditions are superseded by such agreement or understanding. Any modifications proposed by Seller are not part of the agreement absent such written agreement. However, all specifications, drawings, and data submitted to Seller by Buyer in connection with any Purchase Order are a part of the agreement of the parties relating to that Purchase Order. No remedy herein provided shall be deemed exclusive of any other remedy allowed by law or equity.

4. **Quantities; No Quantity Guarantee.** Unless quantities and shipping schedules are specified, Buyer makes no representations or guarantees as to the quantity of Items it will purchase from Seller, and Purchase Orders are issued to cover the purchases of Items described thereon for an indefinite period or until canceled, with shipping schedules and quantities to be determined by Buyer and indicated to Seller via a Purchase Order Release. All forecasts or other estimates of quantities or requirements for Item(s) provided to Seller by Buyer shall be non-binding on Buyer, and Seller

acknowledges that it shall not be entitled to and shall not rely on such forecasts or estimates as binding commitments unless they are expressly stated as such by Buyer in writing.

5. Termination. Buyer may at any time terminate, cancel or suspend all or any part of undelivered Items or quantities on any outstanding Purchase Order, Purchase Order Revision or Purchase Order Release. Seller agrees that its sole remedy as a consequence of any such termination or cancellation is the reimbursement by Buyer of the reasonable costs of materials and labor actually and directly incurred by Seller on Items terminated or canceled by Buyer prior to Seller's knowledge of such termination or cancellation. Seller further agrees to take all steps reasonably possible to mitigate such charges. Seller may only terminate a Purchase Order or Purchase Order Release after giving Buyer reasonable notice of such termination and an opportunity to identify and set up an alternate supplier.

6. Shipping Instructions.

- a. **Freight and Delivery.** Shipping will be as directed by Buyer on the Purchase Order, Purchase Order Release, or Purchase Order Revision or if not specified shall be FCA Seller City INCOTERMS 2020. If a carrier or method of shipment is used that is not specified in the Purchase Order, a Purchase Order Release, a Purchase Order Revision or in these Terms and Conditions without the advance written approval of Buyer, Seller shall be debited for any increase in the cost of the shipment. Seller shall maintain inventory adequate to meet Buyer's shipping instructions. Seller shall be responsible for any special freight charges or Cost-to-Cover Charges incurred to meet requirements of a Purchase Order Release. In addition to any of the special freight charges or Cost-to-Cover Charges, Buyer may charge Seller for other costs of untimely or inaccurate delivery. Seller shall accept any such charges from Buyer; provided, however, that Seller may request reconsideration of any such charges by submitting a written request to Buyer within sixty (60) days after receipt of the charges, setting forth the reasons and details supporting reconsideration. After consultation with Seller, Buyer shall have sole discretion to determine whether the charges are appropriate and shall inform Seller of Buyer's decision within a reasonable time thereafter. This Section does not limit any other remedies that may be available to Buyer under these Terms and Conditions or at law.
- b. **Packaging; Classification; Labeling.** If Buyer has provided Seller with a copy of Buyer's Materials Standard Practice No. 20, Seller must label the outside of all packages utilizing bar code labels in Buyer's AIAG format as described therein. Seller shall ensure that all Items are properly described, classified, packaged, marked and labeled and are in proper condition for transportation according to applicable regulations, including but not limited to, U.S. Department of Transportation, International Air Transport Association and the International Maritime Dangerous Goods Code regulations ("IMDG Code"). As part of the price of the Items, Seller shall provide the Items in the packaging required by Buyer in the specification or Purchase Order, or as otherwise provided to Seller in writing. Packaging for service Items will often be different than packaging for first fit Items that Buyer uses in production of its products, and Buyer may require service Items to be packaged so they are ready for shipment to customers. Seller shall indemnify Buyer for all costs resulting from its failure to meet Buyer's specified packaging requirements. Such packaging shall be of a quality and type as specified by Buyer. Seller shall only use such packaging for Buyer and not for any other purpose. At Buyer's direction, Seller shall return or destroy such packaging at its expense.
- c. **Packing Slips.** Seller shall include the packing slip in a waterproof envelope secured to a package on all shipments. The packing slip must show the Purchase Order No., Supplier Code, Item No., Quantity, Identification or Specification No. and Engineering Change No. or Material Code exactly as shown on the Purchase Order.
- d. **Shipping Notices.** Seller shall send Buyer appropriate separate notice of shipment, including the same information that is contained on the packing slip plus all information relating to shipment date and handling.
- e. **Bills of Lading.** Seller shall include the Purchase Order No. and the Supplier Code on all bills of lading.
- f. **Early Shipments; Overshipments.** On shipments made earlier than the period specified on the Purchase Order, Buyer, at its option, may return the Items at Seller's expense and/or withhold payment until the otherwise applicable payment date. Buyer may return overshipments to Seller at Seller's expense. In either case, if Buyer so returns Items, Seller's account shall be debited for the total amount of any invoices (including, but not limited to, shipping expenses and taxes) paid thereon.
- g. **Shipments of Hazardous Materials.** "Hazardous Materials" are defined for purposes of these Terms and Conditions as any substances regulated as contaminants, or as threats or potential threats to human health, safety or the environment, by any Environmental Requirements (as herein defined). In addition to Sections 6(a)-(f), Seller must comply with the following requirements for shipment of Hazardous Materials:
 - (1) The shipping term, risk of loss and title transfer shall be DDP Buyer's receiving facility INCOTERMS 2020.
 - (2) Seller shall ensure that all personnel shall receive hazardous materials training as required by applicable regulations. Seller shall further ensure that a valid 24-hour emergency response number (domestic and international) is supplied on the shipping documents for Hazardous Materials and that the appropriate safety data sheet ("SDS") has been given to the proper emergency response organization prior to shipment. Seller shall be shown as the "shipper" on all documents relating to the shipment of any Hazardous Materials provided under the Purchase Order. Buyer is not to be shown as the "shipper" on any such documents.
 - (3) Seller may use Buyer designated carriers for the shipment of Hazardous Materials provided that all the conditions in this Section are met. Seller must use the "Buyer Straight Bill of Lading for Hazardous Material Shipments" for all shipments to non-World Class Industries IL facilities.

The following fields must be completed on the bill of lading form: Fac., Dk. and Acct. Distribution. Questions regarding this information should be directed to the Buyer's purchasing representative.

- (4) Hazard Communication. For all Items, Seller shall provide Buyer with the appropriate hazard classifications and warning messages that should appear on product labels as required by Environmental Requirements, the Hazard Communication Standard ("HCS"), the Globally Harmonized System of Classification and Labeling of Chemicals ("GHS"), and other laws and regulations of the United States and non-United States jurisdictions in which such Items will be distributed. Seller shall develop, revise, update and transmit an electronic copy of the current (prepared or revised not more than three years prior to the date of the relevant Purchase Order) SDSs for all Items purchased, in the appropriate language and format that may be required by the laws of the jurisdictions in which the Items will be distributed. When applicable, Seller shall format such SDSs and labels to identify the Item as a World Class Industries-branded product. "Environmental Requirements" means all United States and foreign (non-United States) federal, state, provincial, or local laws, regulations, ordinances, orders, or other pronouncements now in effect or as hereafter amended, that have the force or effect of law, relating to human health or safety and the protection, preservation, or remediation of the environment, including but not limited to the Comprehensive Environmental Response, Compensation and Liability Act, 42 U.S.C. Section 9601 et seq., the Resource Conservation and Recovery Act, 42 U.S.C. Section 6901 et seq., the Clean Air Act, 42 U.S.C. Section 7401 et seq., the Clean Water Act, 33 U.S.C. Section 1251 et seq., the Toxic Substances Control Act, 15 U.S.C. Section 2601 et seq., the Occupational Safety and Health Act, 29 U.S.C. Section 651 et seq., the Federal Hazardous Substances Act, 15 U.S.C. Section 1261 et seq., and the Emergency Planning and Community Right to Know Act, 42 U.S.C. Section 11011 et seq.
- (5) Seller shall comply with all laws administered by the U.S. Department of Transportation ("USDOT"), and USDOT and United Nations/North America (UN/NA) rules and regulations, including but not limited to the U.S. Federal Hazardous Materials Transportation Act, 49 U.S.C. Section 5101 et seq., the UN/NA 1993 regulation regarding flammable liquids, international regulations issued by the International Civil Aviation Organization (ICAO Technical Instructions), and the IMDG Code, that regulate the transportation of Hazardous Materials and apply to transportation of the Items while under Seller's possession or reasonable control.

7. Warranty. Seller, in addition to any express or implied warranties of additional scope given to Buyer by Seller or implied by law, hereby warrants that Items furnished by Seller will be in full conformity with Buyer's instructions, specifications, drawings, and data, and Seller's samples or representations, and will be free from defects in design (to the extent that Seller furnishes the design), materials and workmanship. Unless otherwise specified in writing, Seller's warranty shall run concurrently with Buyer's standard warranty periods ("Item Warranty Period"). Seller acknowledges that Buyer's warranty periods for Buyer's machines or equipment are subject to change during the term of the applicable Purchase Order, and the Item Warranty Period shall be adjusted in accordance with any changes in the corresponding warranty period for Buyer's machines or equipment. Seller may not change Items or any specifications, engineering processes, major manufacturing equipment, materials or design without the prior written consent of Buyer. Any development of new Item(s) shall follow Buyer's NPI and Advanced Product Quality Planning (APQP) processes as defined in Buyer's Supplier Quality Manual. To the extent that the Items include services to Buyer, Seller warrants that it is properly licensed, certified, and trained (in compliance with the applicable standards set forth by relevant governmental or industry association authorities), and that such services will be provided with a degree of care and competence that, at minimum, accords with customary industry standards and practice. Seller agrees that this warranty shall survive acceptance of the Items. Seller shall be responsible for every claim for compensation in respect of damage or injury that is based on a breach of the foregoing warranty, and, at Buyer's option, Seller shall handle any such claims or shall provide all reasonable assistance to Buyer in Buyer's handling of such claims.

a. Significant Failures. Notwithstanding the foregoing, in the event of significant failures of an Item to comply with the Seller's warranty without regard to the Item Warranty Period (including without limitation, Item recalls, multiple field failures, latent defects, continuous product improvement projects, or any other failures of an Item to comply with the Seller's warranty that might cause significant or ongoing harm to Buyer's customers), Buyer shall be entitled to debit Seller for one hundred percent (100%) of the total actual and estimated costs incurred by Buyer related to such failures that Buyer has determined are attributable to Seller (where Buyer owns the design, failures solely attributable to design defects shall not be attributable to Seller unless such defects are attributable to services of Seller). Prior to debiting such amount, Buyer shall provide Seller an explanation of the amount Buyer intends to debit Seller and the basis for its conclusion that such failures are attributable to Seller. Upon completion of any investigation into the root cause of such failures, Buyer and Seller shall compare the actual costs incurred by Buyer and the amount Buyer debited Seller related to such failures, and shall make any needed adjustments (i.e., a debit or credit) based on the difference between such actual costs and the debited amount such that Buyer recovers all, but not more than all, of the costs it incurred related to such failures.

b. Return and Review of Item.

- (1) **Return of Item.** Seller shall have the option to request return of the Item if such Item is obtainable by Buyer, in accordance with Buyer's then current part return process between Buyer and its dealers. All shipping expenses for returning such Item shall be paid by Seller.
- (2) **Analysis of Returned Item.** If Seller requires analysis of Returned Item, Seller shall have the option, at Seller's sole expense, to arrange for shipment of such Returned Item to Seller's designated location. Buyer shall ship Returned Item to Seller's designated review location at a frequency of not more than once per month.
- (3) **Failure Analysis Report.** Seller shall provide a failure analysis report to Buyer for all Returned Item within fifteen (15) days after Seller's review of the Returned Item. If Seller fails to provide to Buyer pursuant to the timeframes provided herein the failure analysis report(s) described in this subsection within such fifteen (15) day period, Buyer shall be entitled to debit Seller for one hundred percent (100%) of the total warranty costs for such Item, without regard to the Warranty Amount.

c. Disposition of Returned Item.

- (1) **Seller's Ownership of Returned Item.** Returned Item shall become the property of Seller upon satisfaction and full payment of any outstanding Warranty Amount. Seller shall not reuse, repair, or resell Returned Item without Buyer's prior written approval.
- (2) **Buyer's Ownership of Returned Item.** If it is determined that Buyer is responsible for the failure of any Returned Item, or if the Returned Item is a core used in Buyer's remanufacturing operations, such Returned Item shall remain the property of Buyer. If such determination is made after the Returned Item is shipped to Seller, Seller shall, at Buyer's request and sole expense, return such Returned Item to Buyer's designated location.

8. Limitation on Liability. In no event shall Buyer be liable to Seller for incidental or consequential damages, or damages for lost profits, including but not limited to compensation, reimbursement or damages on account of lost profits on sales or anticipated sales by Seller, or on account of investments or commitments made in connection with a Purchase Order, or in connection with the establishment, development or maintenance of the business or goodwill of Seller.

9. Product Regulations. The term "Product Regulations," as used in these Terms and Conditions, shall mean Environmental Requirements, labeling, marking, license, authorization, certification, country of origin, hazard communication, and other United States, non-United States, and international entity regulatory requirements applicable to the import, export, manufacture, sale, or distribution of Items pursuant to Purchase Order(s). Such Product Regulations specifically include, but are not limited to, California Health & Safety Code Section 25249.5 et seq. ("Proposition 65"), Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act, European Union ("EU") European Conformity ("CE") marking requirements (including the declaration of conformity, Technical Construction File and user's manual), and the following EU Directives and Regulations: Regulation concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals ("REACH"); Restriction of the use of certain Hazardous Substances ("RoHS"); Machinery Directive; General Product Safety Directive; Directive on Noise Emissions; Directive on Classification, Packaging and Labeling of Dangerous Substances; Limitations Directive (applying to carcinogenic lubricating oils); Directive on Waste Electrical and Electronic Equipment ("WEEE"); Directive on Classification, Packaging and Labeling of Dangerous Preparations; Construction Products Directive; Battery Directive; and Gas Appliance Directive. Seller is solely responsible for the compliance of the Items with all applicable Product Regulations. Seller agrees to provide to Buyer all information and documentation, including but not limited to product material data and supply chain data (for example, Seller must provide information on behalf of any downstream supply chain) necessary for Buyer to comply with all applicable Product Regulations in a timely fashion and well in advance of any applicable deadline necessary for Buyer to comply with applicable Product Regulations. Seller also agrees to provide this information and documentation by any additional deadline established as part of a specific request by Buyer, absent written agreement by Buyer to an alternate time frame.

On an annual basis or more frequently if requested by Buyer, Seller shall disclose to Buyer any Items Seller delivered to Buyer that contain tin, tantalum, tungsten, gold, or other materials that may be designated as a conflict mineral by the U.S. government ("Conflict Minerals"). Seller shall have a supply chain policy for Conflict Minerals and shall undertake (1) a reasonable inquiry into the country of origin of Conflict Minerals incorporated into Items it provides Buyer; (2) due diligence of its supply chain, as necessary, to determine (i) if Conflict Minerals incorporated into Items it provides Buyer are sourced from the Democratic Republic of the Congo or adjoining countries and if so, (ii) whether such Conflict Minerals directly or indirectly support

conflict in these countries, and (3) risk assessment and mitigation actions as may be necessary to implement the reasonable country of origin inquiry and due diligence procedures. Seller agrees to provide to Buyer all supporting information and documentation substantially in the format requested by Buyer, including, but not limited to, supply chain data necessary or desirable for Buyer to comply with its obligations under Section 1502 of the Dodd-Frank Wall Street Reform and Consumer Protection Act and its implementing regulations. All such supporting information and documentation shall be retained by Seller for a minimum of five years and be subject to audit by Buyer upon reasonable notice. Seller shall include the substance of this Section 9 in all subcontracts awarded by Seller for work under this Purchase Order.

10. Inspection. Items are subject to Buyer's inspection, testing and approval. Buyer, at its option, may reject or refuse acceptance of Items that do not meet the requirements of the Purchase Order or any applicable warranty. Items rejected or not accepted by Buyer shall be returned to Seller at Seller's expense, and Seller agrees to refund to Buyer any payments (including, but not limited to, shipping expenses and taxes) made by Buyer for such Items. Payment by Buyer for any Items shall not be deemed an acceptance thereof. Acceptance of any Item shall not relieve Seller from any of its obligations, representations or warranties hereunder or pursuant hereto.

11. Work in Process; Quality Program; Cost of Poor Quality; Capacity. Buyer shall have the right, at any reasonable time or times, to inspect materials, work in process, finished Items and parts, and records relating thereto, at any facilities at which Items are manufactured or such records are kept. Buyer assumes no responsibility and waives no rights as a result of any such inspection.

Seller shall maintain a quality assurance program satisfactory to Buyer to ensure that Items consistently satisfy Buyer's quality requirements. Seller agrees to periodically review with World Class Industries the potential for product or manufacturing improvements. Items shall meet and be delivered in accordance with Buyer's technical, quality, reliability, and other specifications as communicated from time to time by Buyer including without limitation, via a Purchase Order or Purchase Order Release, Buyer's Supplier Quality Manual, Item prints or specifications, or otherwise. Seller shall maintain a quality plan that complies with Buyer's Supplier Quality Manual, the current version of which is available on Buyer's supplier portal, access to which Seller acknowledges having been provided. Should Seller fail to timely or accurately deliver Item(s) (i) in accordance with the Purchase Order Release; or (ii) that meets such technical, quality, reliability, and other specifications or should it become apparent that Seller will not be able to do so, in addition to any other rights and remedies Buyer may have under an applicable Purchase Order or provided by law, Buyer may purchase replacement product on the open market and Seller shall pay Buyer any amounts incurred in excess of those which would have been incurred had Seller timely delivered Item(s) ("Cost-to-Cover Charges").

Prior to commencement of the Item Warranty Period, when Item(s) do not conform to Buyer's specifications, designs, drawings, or requirements, Buyer may charge Seller for costs of poor quality, as may be modified from time to time by Buyer, in accordance with Buyer's Cost of Poor Quality program ("COPQ") and Manufacturing Practice MQ4007 or their functional equivalents. Buyer shall reasonably determine the charges and inform Seller. Buyer may debit Seller for such COPQ charges. Seller shall accept any such charges from Buyer; provided, however, that Seller may request reconsideration of any such charges by submitting a written request to Buyer within sixty (60) days after receipt of the charges, setting forth the reasons and details supporting reconsideration. After consultation with Seller, Buyer shall have sole discretion to determine whether the charges are appropriate and shall inform Seller of Buyer's decision within a reasonable time thereafter. This Section does not limit any other remedies that may be available to Buyer in these Terms and Conditions or at law.

Seller shall maintain sufficient production capacity to ensure that Buyer's firm orders for Items are promptly and regularly filled. Additional to Seller's obligations in the previous sentence, Seller shall maintain capacity plans and Seller shall notify Buyer immediately in writing if it does not have sufficient capacity. Seller's capacity may be audited by Buyer.

12. Price, Payment Terms and Invoices. Seller represents that the price charged to Buyer for Items is at least as low as the price charged by Seller to buyers of a class similar to Buyer under conditions similar to those specified in the Purchase Order and that prices comply with applicable government laws and regulations in effect at time of quotation, sale and delivery. Seller agrees that any price reduction regarding any Items that is implemented prior to shipment or rendering of such Items shall be applied to the Purchase Order for all shipments or rendering of Items following such price reduction. Buyer may withhold payment until proof of the absence of any liens or encumbrances on the Items is given to Buyer, upon Buyer's request. Further, in addition to any other rights or remedies available to Buyer, Buyer may withhold any payment for non-delivery of Items, or delivery of nonconforming or poor quality Items by Seller, its subcontractors or its agents.

Unless otherwise specified thereon, prices quoted on any Purchase Order or Purchase Order Revision include any and all charges for the Items ordered (including but not limited to, any charges for boxing, packing, crating, cartage, taxes or other additional charges). If the price or quantity on Seller's invoice does not match the price on Buyer's corresponding Purchase Order, then no payment of such invoice shall be due Seller until the discrepancy is resolved.

Seller hereby waives any applicable lien over the Items, whether such Items are being supplied to Buyer or Buyer's subcontractors.

Seller's invoices shall comply with Buyer's invoicing instructions. Seller shall include on invoices the same information that is required on Packing Slips, and, unless otherwise instructed on a Purchase Order, shall send such invoices in an electronic format specified by Buyer and to the electronic location provided by Buyer to Seller. Prices contained in a Purchase Order are exclusive of all taxes, including VAT (as defined below). In the event that any Items supplied by Seller pursuant to a Purchase Order are properly subject to VAT, and where Buyer has agreed in writing to pay such VAT, Buyer shall, in addition to the price payable for any Items, pay to Seller the appropriate amount of VAT provided that Seller has first issued to Buyer a compliant invoice in accordance with the provisions of the relevant VAT legislation. Where Buyer has agreed in writing to pay any taxes relating to any Purchase Order, applicable taxes shall be listed separately on the invoice. "VAT" means value added tax or goods and services tax or any other similar transaction tax, but not U.S. sales and use tax. Invoices for Items shall be paid thirty (30) days from the date of receipt of the invoice or receipt of Items, whichever is later. Buyer reserves the right to require Sellers to submit invoices electronically. Moreover, Buyer reserves the right to make payment to Seller electronically. Sellers shall submit invoices on a timely basis after Items are delivered. Any invoices submitted after sixty (60) days will not be accepted.

13. Resale Certification. If a Purchase Order is marked "Resale," Buyer certifies that Items purchased thereunder are purchased for purpose of resale.

14. Property Furnished to Seller by Buyer. Except as specified below, all patterns, dies, molds, tools, models, jigs, core boxes, piece parts, samples, materials, drawings, specifications, test reports, technical material, advertising material, and any other personal property furnished to Seller by Buyer, or specifically paid for by Buyer for use in performance of a Purchase Order (collectively "Materials"), shall be and remain the property of Buyer, shall be subject to disposition according to Buyer's instruction, and shall be used only in filling orders from Buyer. Title to and full ownership of the Materials shall remain with Buyer at all times. Seller shall not claim any rights of ownership in any of the Materials and shall not mortgage, encumber, transfer, dispose of, remove or allow the removal of any of the Materials from Seller's facility to which such Materials are initially delivered, except as permitted or instructed by Buyer in writing. Seller shall take all necessary precautions and actions to preserve and maintain the Materials in good working condition. Seller shall perform any further act and execute, acknowledge, and deliver any further documents that Buyer may reasonably request in order to protect Buyer's title to the Materials. Seller shall at all times clearly identify the Materials as the property of Buyer by labeling the Materials with distinctive markings, and to the extent reasonable, shall keep the same separate and apart from the property of others, including Seller, located in the same facility. Seller shall bear the risk of any damage to or loss of such Materials while in the possession of or under the control of Seller or Seller's agents. Any waste materials or byproducts generated by or resulting from operations on, use of or processing of Materials furnished to Seller by Buyer shall be and remain the property of Seller, and Buyer shall have no responsibility in connection therewith.

Buyer may issue separate Purchase Orders for tooling or other property furnished by Buyer to Seller that is needed to manufacture Item(s). As requested by Buyer, Seller shall execute a tooling bailment agreement covering property furnished to Seller by Buyer. Any such tooling or other property shall conform to Buyer's APQP requirements.

Any Materials furnished to Seller by Buyer for use in connection with a Purchase Order are provided in AS-IS condition, and Buyer makes no representations or warranties of any kind, including warranties relating to the condition of such Materials or their suitability for the purposes required by Seller. BUYER DISCLAIMS ANY AND ALL WARRANTIES ASSOCIATED WITH SUCH MATERIALS, INCLUDING, BUT NOT LIMITED TO, EXPRESS OR IMPLIED WARRANTIES, WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

The obligation of confidentiality hereunder shall not apply to Information that: (1) can be demonstrated by contemporaneous written evidence to have already been in Seller's possession, without restriction on its use or disclosure, before being received from Buyer or an Affiliate thereof, (2) is or becomes available to the general public through no act or fault of Seller, or (3) is rightfully disclosed to Seller by a third party without restriction on its use or disclosure. Seller will not disclose any Buyer Confidential Information to any third party except: (I) to conduct business with or on behalf of Buyer or its Affiliates; however, before such disclosure occurs, Seller shall first ensure that such third party has signed a written confidentiality agreement having terms at least as restrictive as the terms of this Section 15; or (II) if such information is required to be disclosed pursuant to judicial or governmental decree or order, provided that Buyer or an Affiliate thereof is given prompt notice of and the opportunity to defend against disclosure pursuant to such decree or order. Except as otherwise expressly set forth herein, Seller will not disclose any confidential information to Buyer or an Affiliate thereof unless Buyer or an Affiliate thereof first agrees in a signed writing to the receipt of such confidential information. Seller acknowledges that Buyer otherwise has no confidentiality obligations with respect to any Intellectual Property previously or hereafter disclosed by Seller to Buyer.

(c) Some Intellectual Property may be protected by patents, copyrights, trade secrets, industrial design rights, and/or other forms of statutory or common-law intellectual property protection, or through implied or express contractual rights (collectively "Intellectual Property Rights"). Buyer and/or its Affiliates will grant to Seller, and hereby grant to Seller, a limited, nonexclusive, revocable, and nontransferable license under Buyer Intellectual Property Rights to use Buyer Confidential Information and Buyer Intellectual Property solely to the extent necessary for Seller to produce and supply Items to Buyer and its Affiliates and/or as expressly approved in an advance signed writing by Buyer or an Affiliate thereof. (d) From time to time, Buyer may request financial statements from Seller and/or Affiliates of Seller. In particular, Buyer may request, and Seller and/or Affiliates of Seller will promptly provide, independently audited non-technical financial statements (income statement, balance sheet, and cash flow statement) for the previous two (2) fiscal years and interim financial statements through the current fiscal year-to-date period (collectively "Seller Financial Statements"). Buyer shall hold and safeguard Seller Financial Statements by using the same degree of care Buyer uses to protect its own information of like kind, provided, however, that Buyer may disclose Seller Financial Statements to a third party contracted to assist Buyer with analyzing Seller Financial Statements if such third party is obligated to maintain the confidentiality of Seller Financial Statements to the same extent Buyer is so obligated under this Section 15.

(e) Seller will provide an accurate and usable CAD model for each Item in a Pro/Engineer, Creo or CAD neutral format.
